BUILDING UPDATE

We believe God has called us to reach our city and the uttermost parts of the world with the love of Jesus. We are building a campus to facilitate the equipping and training of believers to be sent out into our city, our nation and the nations of the world. The increase in space will give us more room for the children and adults in Waco who want to join our Sunday services. It will also give us a greater capacity to facilitate and expand our work around the world.

BUILDING PROGRESS

The remaining amount needed to finish the project is: **\$3,800,000**. This amount does not include the five percent of building funds we give back to the community and other ministries.

In 2014, we gave \$81,000 back to the community and other ministries.
